

# Example 9

This is a page which shows you how illustrations, grids and the place tag work.

This is an illustration  
The red circle you can see is an *illustration*, not a *pageGraphic*.

So is the teal colored one.  
These are all flowables in the story.

					<div><div>This is a use of <i>place</i></div><div><p>This is a flowable. In this case, it is in a <code>&lt;para&gt;</code> tag, but it could be any flowable. It has been placed inside a grid, but you could put it inside any graphic or <code>pageGraphics</code>. Using the <code>place</code> tag, you can have complete control over where you want your flowables to appear.</p><p>You can include Greek: <math>\alpha\beta\gamma\delta</math>.</p><p>Or even</p><p>a <code>blockTable</code>.</p></div></div>
